For: REFRIGERATOR HAVING TEMPERATURE CONTROLLED CHAMBER

**COMMENTS REGARDING STATEMENT OF REASONS FOR ALLOWANCE**

Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

Sir:

A Statement of Reasons for Allowance was forwarded in the Notice of Allowability mailed January 9, 2006.

MPEP §1302.14 states, in part:

“Where specific reasons are recorded by the examiner, care must be taken to ensure that statements of reasons for allowance (or indication of allowable subject matter) are accurate, precise and do not place unwarranted interpretations, whether broad or narrow upon the claims. The examiner should keep in mind the possible misinterpretations of his or her statement that may be made and its possible estoppel effects.”

The Examiner characterizes certain features of various claims. But the Examiner has not recited the appropriate language for the appropriate claims as pending and allowed in the application.

By way of example, independent claim 18 does not recite a “freezer compartment.”

The foregoing is merely meant to be exemplary, and does not necessarily point out all of the discrepancies between the Examiner’s Statement of Reasons for Allowance and the claimed

features of the currently pending claims.

It is further submitted that the claims speak for themselves and should not be interpreted based on the Examiner's characterizations of same. It is also submitted that the claims provide their own best evidence as to the reasons for allowance.

In summary, it is submitted that the Examiner's Statement "raises possible misinterpretations... and possible estoppel effects" (M.P.E.P. §1302.14), and is therefore improper.

Respectfully submitted,

STAAS & HALSEY LLP
